

Homework 5

Due before class April 13

1. Pinchover and Rubenstein Chapter 5: 5.4, 5.7, 5.9, 5.14, 5.17
2. Levy and Shearer Chapter 6: 5, 9

Note that this is the minimum number of problems you should be solving. Other problems in Pinchover and Rubenstein Chapter 5 (including 5.3, 5.6, 5.15, and 5.20) and in Levy and Shearer Chapters 6 (including 1) are good practice problems.
