

# Homework 6

Due before class April 27

1. Pinchover and Rubenstein Chapter 6: 6.2, 6.9, 6.12, 6.23, 6.27
2. Levy and Shearer Chapter 7: 3, 4, 7

Note that this is the minimum number of problems you should be solving. Other problems in Pinchover and Rubenstein Chapter 6 (including 6.1 and 6.15) and in Levy and Shearer Chapters 7 (including 1) are good practice problems.
