Course Description and Goals

This course is about the art and science of decision making, using specific examples from history. The focus will be upon the study of particular historical case studies, for the purpose of learning from the successes – and the failures – of the past. While the major emphasis will be upon significant events affecting U.S. foreign policy (such as the decision to drop the atomic bomb on Japan and the Cuban missile crisis) we will also study decisions impacting U.S. domestic policy, including the internment of Japanese Americans in World War II, the civil rights movement of the 1960s, and the police killing of Michael Brown and the subsequent protests in Ferguson, Missouri in August 2014.

Course Materials

Required Books:

Graham Allison & Philip Zelikow, *Essence of Decision: Explaining the Cuban Missile Crisis*
Daniel Drezner, *Theories of International Relations and Zombies*

Course Requirements and Grading

This class is a seminar. That means that much of the learning takes place though the medium of conversation. The classroom is our shared space where we will collectively work through the issues raised by both the readings and our own experiences. The success of the class depends on our ability to facilitate a conversation that is informed, respectful, challenging, and hopefully fun and exciting.

To help make this class work both individually and collectively, you must be prepared to do two things. First, you must come to class having done the assigned reading for that day. Second, I expect you to come prepared to engage in an informed and respectful discussion with your classmates about the issues, questions, and challenges raised by the readings. I do not expect you to come to class having mastered the readings, some of which are quite challenging. Coming to class with a question or a puzzle raised by the readings is as good as coming with a well-formed opinion. We will almost certainly disagree amongst ourselves on many of the issues raised in this class. Disagreement is a
sign of a healthy and informed discussion so long as you are respectful and collegial to your fellow students.

To help prepare you for the discussion, I ask that for every class meeting for which readings are assigned (via UCMCROPS or required books) students arrive having written a response of roughly one or two paragraphs (no more than one page double-spaced). A response is not a summary of the reading. Nor does it have to be particular formal. Rather, I want you to give your own personal reflection on an issue or question raised by at least one of the readings for that day. If there is something about the reading that puzzles you, your response is a good place to start addressing it. Your response serves two purposes: it helps prepare you for discussion and it counts directly toward your participation grade. Your responses must be submitted in person; they will NOT be accepted by email. If you miss a class due to illness or emergency, please bring the response for that class to the next class meeting.

To reflect the importance that I place on our conversation to the learning process, 40% of your grade will be based on class participation. This part of your grade will be determined by the degree to which you attend the class and contribute to the discussion as well as by your response papers. If you do the readings, attend class regularly, participate in our discussions, and submit your response papers then you will receive a good participation grade. Simple, yes? If you have any question about your participation grade at any point in the semester, please come and see me.

There will also be four written assignments for this class, including a final research paper of 12-15 pages in which students will choose an historical decision and use the tools from the course to analyze it. You will receive a prompt for these essays at least one week before they are due, but the best way to prepare for them is to do the reading and come to section prepared to discuss it.

Grading breakdown:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Percentage</th>
<th>Due Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Participation</td>
<td>40%</td>
<td></td>
</tr>
<tr>
<td>Essay #1 (4-5 pages)</td>
<td>10%</td>
<td>September 9</td>
</tr>
<tr>
<td>Essay #2 (5-7 pages)</td>
<td>10%</td>
<td>October 14</td>
</tr>
<tr>
<td>Essay #3 (4-5 pages)</td>
<td>10%</td>
<td>November 13</td>
</tr>
<tr>
<td>Research Paper (12-15 pages)</td>
<td>30%</td>
<td>December 11</td>
</tr>
</tbody>
</table>

Written assignments turned in up to 24 hours late will receive a 1/3 grade reduction (e.g. an A would become an A-). Work turned in between 24-72 hours late will be lowered a full grade except in cases of serious illness or emergency. Any work turned in after 72 hours late will not be accepted and will count as an F.

Please note you are not permitted to use laptops, cell phones, or other electronic devices in class unless you have a note from the Disability Services Center. In a seminar, being attentive to the discussion and your fellow students is one of the most important components of a successful class.
Academic Honesty

Each student in this course is expected to abide by the University of California, Merced’s Academic Honesty Policy. The relevant section on plagiarism states that:

Plagiarism refers to the use of another’s ideas or words without proper attribution or credit. This includes, but is not limited to: copying from the writings or works of others into one’s academic assignment without attribution, or submitting such work as if it were one’s own; using the views, opinions, or insights of another without acknowledgment; or paraphrasing the ideas of another without proper attribution. Credit must be given: for every direct quotation; when a work is paraphrased or summarized, in whole or in part (even if only brief passages), in your own words; and for information which is not common knowledge. The requirement to give credit applies to published sources, information obtained from electronic searches, and unpublished sources.

Penalty for violation of this Policy may include failure of the course and University disciplinary action. Please see the entire policy http://studentlife.ucmerced.edu.

Accommodations for Students with Disabilities

The University of California Merced is committed to ensuring equal academic opportunities and inclusion for students with disabilities based on the principles of independent living, accessible universal design and diversity. Any student who feels he or she may need an accommodation based on the impact of a disability should contact the instructor privately to discuss his or her specific needs. Also contact Disability Services at (209) 228-7884 as soon as possible to become registered and thereby ensure that such accommodations are implemented in a timely fashion.
Schedule

Week 1: Introduction
