

EECS 207
Spring 2021

Lecture 23

Project

- Content Based Image Retrieval
- Individual effort—no teams.
- Project report due: Friday, May 14
- No presentation.
- I will provide support code in Python and Matlab but you can work in whatever language/environment you prefer.
- Details to follow.

Lab Sections

- No lab section next week: Wed. April 21.

Project Webpage

- I have created a simple project webpage:
 - <https://faculty.ucmerced.edu/snewsam/EECS207/Project/project.html>
- (This is also linked from the course webpage.)
- I will use this project webpage to provide updates, code, data, etc. for your course project.
